IRS Data Retrieval Tool (DRT) Changes

- IRS Data Field Flags
  - NEW set of flags to help financial aid administrators know what, if any, specific information was changed once retrieved from the IRS and transferred into the FAFSA form
  - Flags provided separately for student and parent
  - Flags listed for EACH IRS-related data field that can be transferred from the IRS
  - DIFFERENT flags than the IRS Request Flags
    - 02 Request flag still means no data changed for verification purposes

For Discussion Purposes Only
### IRS Data Retrieval Tool (DRT) Changes

- **List of IRS Data Field Flag values:**
  - Blank = IRS data not transferred from IRS (FAFSA submitted via paper or by a financial aid administrator)
  - 0 = IRS data not transferred from IRS (FAFSA not submitted via paper or by a financial aid administrator)
  - 1 = IRS data transferred from IRS – Not changed by user
  - 2 = IRS data transferred from IRS – Field changed by user prior to submission of application (only occur if IRA/Pension fields changed by user entering rollover amount)
  - 3 = IRS data transferred from the IRS – Field corrected by the user on this transaction
  - 4 = IRS data transferred from the IRS – Field corrected by the user on a previous transaction

### IRS DRT Flag Issue – EA 1/16/2018

**Data Flags and IRS DRT Resolution**

- IRS request flag of 02 though Tax Filing Status data field is 2 (changed)
  - This was fixed at the end of January 2018
  - For remainder of 18/19 FAFSA processing cycle, FAAs may accept IRS Request Flag of 02 when only IRS Data Field Flag equal to '2' is Tax Return Filing Status field (transaction considered verified)

- IRS request flag of 06 (cannot use DRT) is not updating correctly and preventing use of DRT
  - This was fixed at the end of January 2018
  - Work around - go to earlier transaction without 06 flag, make needed corrections, avoid changing anything associated with DRT eligibility

### IRS Data Retrieval Tool (DRT) Changes

- Any web edits that include information transferred from IRS will no longer be presented to the applicant or parent
- Instead, new SAR comments will display on the ISIR (and SAR) to alert financial aid administrators that at least one edit was triggered but could not be displayed and therefore, could not be resolved online
- Comment Codes:
  - 400 (parent) = Your Financial Aid Administrator may contact you to resolve any issues related to parental data reported on your FAFSA
  - 401 (student) = Your Financial Aid Administrator may contact you to resolve any issues related to data reported on your FAFSA
Federal Update

**Reasons for Comment Code 400**

*For Parents of Dependent Students*

- Parent is a tax filer (FAFSA Question 80) and the AGI retrieved from the IRS is zero, but the total income earned from work (FAFSA Questions 88 and 89) is greater than zero
- The total of the Additional Financial Information fields reported on the FAFSA form (FAFSA Questions 93a-f) is greater than the AGI transferred from the IRS
- Any item from the FAFSA list of Untaxed Income (FAFSA Questions 94a-i) is equal to or exceeds the AGI transferred from the IRS

**Reasons for Comment Code 401**

*For Dependent Students and Independent Students*

- Student is a tax filer (FAFSA Question 32) and the AGI retrieved from the IRS is zero, but the total income earned from work (FAFSA Questions 39 and 40) is greater than zero
- The total of the Additional Financial Information fields reported on the FAFSA form (FAFSA Questions 44a-f) is greater than the AGI transferred from the IRS
- Any item from the FAFSA list of Untaxed Income (FAFSA Questions 45a-j) is equal to or exceeds the AGI transferred from the IRS

**Special Notes – Comment Code 400/401**

- When Comment Code 400 or 401 appears on an ISIR and an institutional review confirms that none of the relevant data items for a 400/401 condition exists, the institution need not take any further action
- Comment Code 400/401 can be considered resolved if (V1 or V5) verification is completed for the same applicant for the same ISIR record

For Discussion Purposes Only
Amended Return Filers & the IRS

**ISSUE**
Applicants and parents who self-reported that they amended their tax return could not use the IRS DRT to transfer tax return information into the FAFSA.

**RESOLUTION**
- Amended tax return filtering question has been removed
- Applicant/parent can use IRS DRT to import info from original return
- IRS indicates if there's an amended return on file
- IRS Request Flag 07
- Institution must obtain documentation for the updated information and make any necessary corrections regardless if selected for verification

**Federal Student Aid’s Next Generation Financial Services Environment**

For Discussion Purposes Only
Federal Update

Federal Student Aid (FSA) has one of the largest consumer loan portfolios in the world. We should deliver for our customers as par with world-class financial services.

To do that, we have defined the Next Generation Financial Services Environment with four primary goals:

1. World-class customer experience, grounded in a mobile-first, mobile-complete, and mobile-continuous environment, to improve customer outcomes
2. Greater operational flexibility to allow us to more rapidly integrate new capabilities and features
3. Reduce complexity, improve the stability and resiliency of our systems, and provide more cost-efficient solutions
4. Improve repayment outcomes and overall portfolio performance

Customers interface with multiple brands throughout the student lending lifecycle, creating a fragmented experience

Today’s fragmented customer experience is driven by a diverse vendor landscape with limited branding opportunities for FSA

New FAQ at CyberSecurity Site

Q. We recently heard in an FSA conference session that we can no longer accept faxed or emailed copies of taxes or tax transcripts. Is this the case? Are we permitted to accept such documents via a student’s school email account?

A. Schools should never solicit personally identifiable information (PII)—especially sensitive personally identifiable information (SPII)—through means that are known to be insecure. Schools must remediate this type of data breach immediately each time it occurs. However, at this time, this type of data breach does not need to be reported as an institutional data breach to FSA.*

Sharing FAFSA Data

• HEA is very prescriptive about how the data collected on the FAFSA can be used
• ED continues to look at what options are available, under the HEA, for institutions to share data with other entities, usually involved with awarding scholarships
• Watch IFAP for guidance in the future
